

# DESTINY™

**Navigate your herd's destiny  
to profitable lactation.**

## **Destiny™ Dry & Transition Cow Program**

The road to profitable lactation is highly influenced by dry and transition cow nutrition. From the far-off dry cow to the close-up cow, producers can navigate their herd's destiny for a healthy and profitable lactation through the use of precision nutrition programed in the Destiny Dry and Transition Cow Program. The Destiny Dry and Transition Cow Program provides a comprehensive portfolio of products developed with the latest in dry cow nutritional technology and is designed to meet the precise nutritional requirements essential to gear dairy cows up for optimal performance. Destiny smooths the road for dairy cows to enter the milking herd refreshed and healthy.
