

GROSTRONG®

Vitamin-Mineral Supplement

- Balanced Calcium:Phosphorus Ratio
- 28 Vitamins, Minerals, and Electrolytes (including salt)
- Added Biotin to support hoof integrity and hair health
- 3,000 IU/lb vitamin E

GROSTRONG® Minerals provide the necessary minerals and vitamins to complement forages and grains, enabling horses to reach their performance potential. GROSTRONG Minerals can be top-dressed on feeds, included in mixed feeds, or offered free-choice.

GROSTRONG Minerals

A Vitamin-Mineral Supplement for All Classes of Horses

Product Form/Packaging

Granular form—5-lb pouch, 25-lb bag, 50-lb bag

Block form—33.3-lb block

How Much is Needed

1-3 oz per horse daily (refer to specific feeding directions on individual product labels)

When starting to feed, remove other salt and mineral products. Feed continuously near horses' source of water and, preferably, protected from rain.

Granular form: Feed free-choice, top-dressed on feed, or incorporated into grain mix.

Block form: Feed free-choice to horses on pasture.

GUARANTEED ANALYSIS

Calcium (Ca), min./max.	15.2-18.2%
Phosphorus (P), min.	8.0%
Salt (NaCl), min./max.	26.0-31.0.0%
Sodium (Na), min./max.	10.0-12.0%*
Copper (Cu), min.	3600 ppm
Selenium (Se), min./max.	30-36 ppm
Zinc (Zn), min.	11,500 ppm
Biotin, min.	83 mg/lb
Vitamin A, min.	300,000 IU/lb
Vitamin D3, min.	30,000 IU/lb
Vitamin E, min.	3,000 IU/lb

*GROSTRONG Mineral block sodium guarantee is 9.0-10.8%.

Additional salt should be offered to hard-working horses to offset losses through perspiration.

These feeding directions are guidelines only. Monitor and adjust according to individual needs. Consumption will vary according to each individual horse's appetite, age, size, and body condition, as well as contribution of other nutrient sources in the diet.

CAUTION: Consumption of this product by sheep and goats may result in copper toxicity. Follow label directions. Feeding added selenium at levels in excess of 0.3 ppm in the total diet is prohibited.
