PRO-VITA-MIN 20-5 Tub

A Free-Choice Supplement for Horses on Pasture

Product Form/ 100 lb tubs (11228AAA6G)

Packaging 200 lb tubs (11228BL)

How Much is Needed 1-2 b per horse daily

Feeding Instructions Feed GROSTRONG PRO-VITA-MIN 20-5 Tub free-choice to horses on pasture or roughage rations. Make sure animals have adequate pasture or roughage available and are not starved for salt or minerals. Feed GROSTRONG PRO-VITA-MIN 20-5 Tub continuously. Place tubs in pastures near areas frequented by horses, such as watering locations, shade or loafing areas. Place one tub for every 5 horses and place tubs far enough apart to prevent dominant horses from controlling more than one tub. Consumption may vary depending on number of horses per tub, climate, grazing conditions, condition of horses and/or availability of other feeds. In situations where climate and/or other factors result in consumption other than desired, intake of supplement can be increased or decreased by adding or reducing tubs per pasture. Provide adequate forage and supplemental feed as needed to maintain the desired body condition. Provide free access to fresh, clean water at all times.

GUARANTEED ANALYSIS

Cude Protein, min.	20.00%
Crude Fat, min.	5.50%
Crude Fiber, max.	5.00%
Acid Detergent Fiber, max.	6.00%
Neutral Detergent Fiber, max.	10.00%
