MoorMan's® ShowTec®

Goat Sale Prep DC - 81072AZNE4

- **Nutritionally balanced creep feed designed to be fed for peak performance and bloom from one week of age to weaning (or to 45 lb body weight)**
- **18% protein, 5% fat, 15% fiber to promote fast, efficient lean gain in young growing show goats**
- **Properly fortified with minerals and vitamins including complexed (organic) cobalt, copper, manganese, and zinc for optimum growth and structural development**
- **CitriStim®, Prospan® yeast, and a direct fed microbial that enhances gut health and aids in digestibility**
- **Contains stabilized rice bran that provides rice oil (energy source), gamma oryzanol (a potent antioxidant), Omega 3 fatty acids (essential fatty acids)**
- **Contains natural-source vitamin E that has more potent antioxidant activity compared to synthetic vitamin E**
- **Medicated with Deccox®* for the prevention of coccidiosis**
- **Contains ammonium chloride to help lessen the likelihood of urinary calculi**
- **Seasonally floor stocked from January through April at Springfield, Quincy, and Bluffton**
- **As with young lambs, kids should be vaccinated for Enterotoxemia types C & D and Tetanus at the time creep feed is offered**

Meat Goat Power 18% - 80864AZN

- **80864AZN ~ Meat Goat Power 18%**
 - **Medicated with Deccox^{®*} - helps prevent coccidiosis**
 - **18% protein, 2% fat, and 7% fiber**

21% Lamb Creep - 80909

MoorMan's[®] ShowTec[®] Lamb Creep DC – 11153AE

- **80909 ~ 21% Lamb Creep**
 - Designed to creep feed lambs from 1 week of age through at least 40-45 lb
 - 21% protein, 3.5% fat, 12% fiber
 - Available with the medication Bovatec^{®*}, Deccox^{®*}, or CTC^{®*}
- **11153AE ~ MoorMan's ShowTec Lamb Creep DC**
 - Designed to creep feed genetically superior show lambs
 - 20% protein, 5% fat, 12% fiber
 - Medicated with Deccox^{®*}

21% Lamb Creep – 80909

MoorMan's® ShowTec® Lamb Creep DC – 11153AE

- **Contains high-quality protein sources with high levels of rumen bypass protein to provide optimum efficient gains**
- **Highly fortified with vitamins and minerals including a complexed (organic) zinc source**
- **Contain CitriStim® and PremiDex™ both benefiting gut health and well being**
- **No added copper**
- **Added molybdenum to decrease the likelihood of copper toxicity**
- **Thiamine at a level that may offer protection from polioencephalomalacia**
- **Small pellets (mini pellets) so the feed can be readily eaten**
- **Contains ammonium chloride to help lessen the likelihood of urinary calculi**
- **May be offered free-choice beginning as early as one to two weeks of age**
- **Vaccinate young lambs for Enterotoxemia type C & D plus tetanus at or near the time creep feed is introduced**

MoorMan's® ShowTec® Prestarter 12097AYWD4

- **24% protein, 7% fat, 3.5% fiber**
- **Micro-pelleted feed formulated for starting early-weaned pigs weighing approximately 8 to 15 lb that are being raised for show pig sales**
- **Plasma and fish meal improves feed intake and growth rate**
- **Multiple high-quality protein sources plus synthetic amino acids allows for optimal lean gain; enhanced performance and feed conversion**
- **Essential vitamins and minerals allows for optimal health and structural growth**
- **Energy Burst™ provides readily available energy sources which research has shown improved growth performance and feed efficiency**
- **Easyzyme®* provides carbohydrase enzymes which have been shown to improve the digestibility and availability of non-starch polysaccharides, allowing more energy to become available for production purposes**
- **Selenium yeast is a more bioavailable selenium source that is important to immune function**
- **CitriStim® is a source of yeast mannans and beta glucans that may alter gut microflora, resulting in enhanced performance.**
- **PremiDex™ has shown positive effects on performance**
- **Direct fed microbials produce a variety of enzymes that have a positive effect on nutrient digestion, resulting in better gain and feed efficiency**
- **Natural-source vitamin E protects body tissues from oxidative damage and enhances immune system function which is critical under stress conditions**
- **ADM Alliance Nutrition exclusive flavoring entices pigs to consume feed leading to higher intakes and faster gains**
- **Medicated with CTC/DEN**

*A registered trademark of EASY BIO, Inc.

MoorMan's® ShowTec® Burst Starter CTC/DEN 24020AYWE4

- **21.5% protein, 6.5% fat, and 4.5% fiber**
- **Mini-pelleted complete feed designed for today's starting/growing pigs being fed for show pig sales or for pigs in early exhibition feeding programs**
- **Enables young show pigs to quickly develop exceptional muscle expression and rapid bloom within 7-10 days**
- **Formulated for pigs weighing 15 to 50 lb body weight**
- **Wide array of protein sources plus synthetic amino acids allows for enhanced performance, optimum lean gain, and better feed conversion**
- **Essential minerals and higher than typical amounts of vitamins allows for optimum health and structural growth**
- **Energy Burst provides readily available energy sources which research has shown improved growth performance and feed efficiency**
- **Easyzyme provides carbohydrase enzymes which have been shown to improve the digestibility and availability of non-starch polysaccharides, allowing more energy to become available for production purposes**
- **Selenium yeast is a more bioavailable selenium source that is important to immune function**
- **CitriStim is a source of yeast mannans and beta glucans that may alter gut microflora, resulting in enhanced performance.**
- **PremiDex has shown positive effects on performance**
- **Direct fed microbials produce a variety of enzymes that have a positive effect on nutrient digestion, resulting in better gain and feed efficiency**
- **Higher levels of pantothenic acid has shown to increase carcass lean and decrease carcass back fat**
- **Natural-source vitamin E protects body tissues from oxidative damage and enhances immune system function which is critical under stress conditions**
- **ADM Alliance Nutrition exclusive flavoring entices pigs to consume feed leading to higher intakes and faster gains**
- **Medicated with CTC/DEN which treats bacterial swine enteritis and pneumonia and controls swine dysentery**

Show Pig Breeder Program

Loaded and Ready to Burst

There's a new Show Pig Starter In the Ring!

MoorMan's ShowTec

MoorMan's ShowTec[®] Burst Starter CTC/DEN 24020AYW

It's loaded with proven elements and nutritional boosters essential for young show pigs being fed for early exhibition shows or show pig sales. This exciting new show pig mini-pelleted, complete feed incorporates ADM proprietary and patent-pending nutritional technology like Energy Burst[™], ChitStar[™], PremDex[™] and Easyzyme[™] to enable young show pigs to burst with exceptional muscle expression and shine needed to successfully compete in the show ring.

Formulation know-how is essential in combining advanced nutritional components with manufacturing expertise to produce an exceptional show pig feed...and that's just what you get with MoorMan's ShowTec Burst Starter CTC/DEN.

We'll see you in the Champion drive.

For more information or to locate a dealer in your area, logon at www.admani.com/moormanshowtec or call us at 866-666-7626.

The first step in Show Pig Success . . . begins with MoorMan's[®] ShowTec[®]!

Whether you're raising show pigs for sale or for early exhibition . . . performance counts! Count on your first step with MoorMan's ShowTec to produce top-notch, in demand, growing show pigs.

1 bag per litter

Start in the farrowing crate with MoorMan's ShowTec Presarier CTC/DEN No. 12007AYW

- Created specifically for early-weaned pigs weighing approximately 8 to 15 lb
- Contains select ingredients and components to give vulnerable pigs the edge on early performance
- Complete, complete, micro-pelleted feed provides 24% protein, 7% fat, and 1.7% lysine

2-3 bags per litter

Transition pigs to MoorMan's ShowTec Burst Starter CTC/DEN No. 24020AYW

- Formulated with most advanced nutritional components which are critical in preparing young show pigs for sales and early exhibition
- Contains components needed to enable young pigs to rapidly develop exceptional muscle expression and bloom within 7-10 days
- Show pig producers observed the following when feeding Burst Starter
 - Pigs appeared fatter and flashier with a more bloomy look
 - Overall better visual presentation of pigs
 - Exceptional feed consumption
 - Very good pallet quality
 - Prefer the CTC/DEN medication
 - Exceptional stool condition
- Complete, mini-pelleted feed is designed to be fed from 15 to 50 lb
- Provides 21.5% protein, 8.5% fat, and 1.5% lysine

All three products provide several ADM innovative, patent-pending and proprietary feed ingredients to enhance the products' effectiveness and performance potential.

1 bag per litter

Two weeks before show pig sale date, top-off with MoorMan's ShowTec Sale Prep Starter No. 12008AXU

- Formulated with ingredients and components necessary to build more expressive muscle shape in growing pigs
- Complete, mini-pelleted feed can be fed from 25 to 75 lb body weight
- Provides 20% protein, 5.5% fat, and 1.25% lysine

MoorMan's ShowTec . . . It's the right first step!
