# Not just texturized feed any more!

ADM's **patented cold pellet manufacturing process** lets you capture the nutrition and ingredients of a texturized feed while taking advantage of the benefits of a pellet plus more!

- Doesn't dry out like texturized feed
- Consistency in nutrient profile in each bite
- Free flowing
- Easy to handle
- Stays fresh longer
- Palatability retained
- Often lower cost

Cold pelleted show feeds are available for show calves, show goats, and lamb creep.

## Looking for a show calf feed with these benefits?
