

Performance-focused Pen Pals® poultry products provide natural-sourced, unique ingredients to support wholesome, healthy, and stress-free birds.

Chicken Starter /Grower #70009

Egg Maker Complete #70010

Meat Maker #70012

Feather Maker™ #70744

Pen Pals Chicken Feeds provide:

- Supplies needed **balanced protein and amino acids** to promote efficient muscle growth and/or support laying potential.
- **Does not contain animal products and animal by-products** which appeals to many backyard poultry and hobby farmer enthusiasts who prefer to raise chickens without the use of animal-sourced ingredients.
- **Mineral and vitamin fortification** provides nutrients necessary for optimum growth and nutrients essential for a properly functioning immune system, which is vital to good health.
- **Availa®* zinc** (complexed zinc) provides more readily available zinc compared to inorganic zinc sources. Zinc is important for immunity, reproduction, skin and claw integrity, muscle development, and eggshell quality.†
- Contains **CitriStim®**, an ADM proprietary feed ingredient that may help poultry strengthen their defenses against health challenges by supporting and optimizing gut function, gut integrity, and body defense responses.
- Supplies a **NSP enzyme** to facilitate better energy utilization of ration components.
- Portion of vitamin E is provided from **natural-source**. Vitamin E is vital to immune system function. Research shows natural-source vitamin E is more bioavailable than synthetic vitamin E††.
- Utilizes **phytase** which is effective in increasing utilization of phosphorus from plant sources, decreasing excretion of phosphorus into the environment.

Egg Maker Balancer #70011

Egg Maker Concentrate #80101

Scratch Grains #80181

Poultry Scratch Block #70741

- **Crumble/pellet forms** ensures poultry receive balanced nutrition (no sorting of ingredients) and minimizes feed waste.
- No additional grain, protein, mineral, or vitamin sources are needed†††.

Also available:

Poultry Scratch Block (25-lb) – Comprised of wholesome, high-quality grains (coarsely cracked corn, whole sorghum, milo, whole wheat), and balanced sources of minerals and vitamins. It is an ideal “busy” block for free-choice supplementation for broilers and layers, especially when birds are confined.

Scratch Grain – Comprised of a loose mixture of coarsely cracked corn and whole grains. When fed with complete chicken feed, Scratch Grain should be fed sparingly as a treat. Excessive feeding of Scratch Grain can reduce egg production and shell quality.

†70012 Pen Pals Meat Maker and 80101 Egg Maker Concentrate do not contain Availa zinc.

††80101 Egg Maker Concentrate and 70744 Feather Maker do not provide natural-source vitamin E.

†††Exceptions are 70011 Egg Maker Balancer, which is designed to be fed with Scratch Grains, and 80101 Egg Maker Concentrate, which is formulated to be fed with grain and limestone.
