

	<p>FLAVORS</p> 	<ul style="list-style-type: none"> • A market leader in flavors • Unique combinations of molecules that induce olfactory and gustatory stimulation • Tailor-made flavor profiles to suit different animal species, types of feed and customer needs • Using Iso-Fusion Technology • Optimum strength & stability • Strong & stable flavor profile • Powerful marketing tool to create unique selling point • Ideal tool to enhance feed attractiveness
<p>PALATANTS</p>	<p>SWEETENERS</p> 	<ul style="list-style-type: none"> • Worldwide leader in sweeteners since 1990 • Patented combination of high intensity sweeteners with taste enhancers and potentiators • Using Iso-Fusion Technology <ul style="list-style-type: none"> - Optimum physical properties - High efficiency • Flexible feed formulation & reduced costs: masks bitter & unpalatable tastes associated with high levels of medications and minerals • Intelligent Gut Action: greater nutrient absorption & optimized gut integrity • Ideal tool to improve feed intake and gut health
	<p>MULTI FUNCTIONAL PALATANTS</p> 	<ul style="list-style-type: none"> • Combines the high intensity sweetener, SUCRAM with sophisticated flavours • Stimulates olfactory and gustatory receptors & activates receptors in the gut (Intelligent Gut Action) for a complete sensory experience • Improves feed intake • Ensures regular feed consumption during challenging developmental phases • Minimizes costs: permits variations in feed formulation with consistent flavor and aroma profile
<p>ORGANIC TRACE MINERALS</p>	<p>ORGANIC TRACE MINERALS</p> <p>CU - 24% ZN - 26% MN - 22% Fe - 22%</p> 	<ul style="list-style-type: none"> • Premium organic trace mineral products based on glycine • Established as a leading reference in the field of organic trace minerals • Combination of technology, chemistry & nutrition • Superior efficacy validated and supported with numerous trials & scientific publications • Highly bioavailable & stable compared to standard inorganic minerals and other alternative organic trace minerals sources • Exclusive tailor-made solutions using Iso Fusion Technology
<p>ORGANIC ACIDS</p>	<p>TAILOR MADE</p>  <p>DaaFit DaaForce ...</p>	<ul style="list-style-type: none"> • Short and medium chain organic acids (acidifiers, mold inhibitors, etc.) • DaaFit S is a source of both medium and long chain fatty acids that are included in the AAFCO approved definition of hydrolyzed vegetable oil • DaaFit Plus contains the short chain fatty acids (SCFAs) formic acid, propionic acid, acetic acid and a quality combination of medium chain fatty acids including lauric acid and caprylic acid • DaaForce 100 is a novel product consisting of Glycerol Tributyrin which is a glycerol ester of butyric acid. The percentage of butyrate provided by DaaForce 100 is higher than coated products

BIOACTIVES

SPECIALTY

A new range relying on 3 criteria

- **SIMPLICITY:** 1 single carefully-selected active ingredient
- **SINGULARITY:** 1 Pancosma exclusivity (molecule is protected by a patent and or by exclusive sourcing)
- **SCIENCE:** 1 defined mode of action, targeting a specific non-nutritional effect

- NexUlin: Designed for transition and early lactation application for dairy ruminants
 - Provides support to dairy cows
 - Helps cows to have more efficient lactation cycle
- Nextend: Designed for post-peak laying hen production
 - Maintains egg production rates
 - Supports efficient production

BIOACTIVES

- Standardized combinations of natural and nature inspired molecules found in plants & spices
- Selected for scientifically proven effects
- Validated through extensive field trails
- Promotes livestock performance

- Created with Iso-Fusion Technology
 - High stability
 - Guarantees consistent performance

YEAST

YEAST

- A unique, proven, whole-cell inactivated and proprietary yeast strain from *Pichia guilliermondii*
- Beneficial in the diet for all life stages and classes of animals

- CitriStim may help the animal strengthen its defense against health challenges by supporting and optimizing gut function, gut integrity, and body defense responses, strengthening production

SPECIALTIES

TAILOR MADE

- Anco FIT is a source of active phytomolecules, functional carriers and viable, naturally occurring microorganisms.

- Specifically formulated to empower high performing animals to overcome dietary challenge and other stressors, enabling them to attain their performance potential.

TAILOR MADE

- TakTik provides unique combinations of technology fit to customer's specific needs
- Tailor-made combinations in custom concentration unique to customer need

- **Synergy:** Complementary molecules are chosen: "1+1= 3"
- **Gut Effects:** optimizes gut function
- **Technology:** use of sophisticated technology to create efficient products
