

Pen Pals® Egg Maker Complete

A Complete Feed for Laying Hens

Product Number
70010AAA

Product Positioning

Performance-focused Pen Pals poultry products provide wholesome, natural-sourced, unique ingredients to support wholesome, healthy, and stress-free birds. Egg Maker Complete is designed to meet the complete nutritional needs of domestic layers in production. No additional grain, protein, mineral, or vitamin sources are needed.

Product Description

Egg Maker Complete (70010AAA) is a highly digestible, 16% protein, 3% fat, **non-medicated**, complete, pelleted feed formulated for laying hens. It contains high-quality grain sources, multiple protein sources, and needed minerals and vitamins to encourage maximum egg production.

Features

16% protein

Does not contain animal products and animal by-products

Mineral and vitamin fortification

Complexed zinc

Empirical® NSP Enzyme

CitriStim®

Portion of vitamin E is natural-source

Phytase

Pellet or crumble form options

Benefits

Provides needed protein for egg production and to maintain feather cover.

Appeals to poultry enthusiasts who prefer to raise chickens without the use of animal-sourced ingredients.

Provides nutrients necessary for optimum egg production and nutrients essential for a properly functioning immune system, which is vital to good health.

More readily available for absorption compared to inorganic sources of zinc. Zinc is important for immunity, reproduction, skin and claw integrity, muscle development, and eggshell quality.

A multi-enzyme, non-starch polysaccharide (NSP) that helps enable poultry to better utilize fibrous ration components by improving digestibility and availability of sugars from NSPs (better energy utilization of ration components), allowing more energy to become available for production purposes.

An ADM proprietary feed ingredient that may help poultry strengthen their defense against health challenges by supporting and optimizing gut function, gut integrity, and body defense responses.

Vital to immune system function; research shows natural-source vitamin E is more bioavailable compared with synthetic vitamin E.

Effective in increasing utilization of phosphorus from plant sources which reduces amount of supplemental phosphorus needed in the ration and reduces excretion of phosphorus into the environment.

Ensures hens receive balanced nutrition (no sorting of ingredients) and reduces feed waste.

Product form/packing:

- Pellet form – 50-lb bag (70010AAA24), 25-lb bag (70010AAA26), and 5 x 5-lb case (70010AAABE)
- Crumble form – 50-lb bag (70010AAA44) and 25-lb bag (70010AAA46)

How Much is Needed*:

- 0.25 lb/hen/day

*Feed consumption is based on average values. Actual consumption may vary significantly depending on the breed of bird, environmental conditions, and weights to which the birds are raised.

Guaranteed Analysis

Crude Protein, min.	16.0%
Lysine, min.	0.7%
Methionine, min.	0.32%
Crude Fat, min.	3.0%
Crude Fiber, max.	6.0%
Calcium (Ca), min./max.	3.9-4.9%
Phosphorus (P), min.	0.4%
Salt (NaCl), min./max.	0.2-0.7%
Vitamin A, min.	3,200 IU/lb

Ingredients

Grain Products, Processed Grain By-Products, Plant Protein Products, Calcium Carbonate, Forage Products, Roughage Products, Monocalcium Phosphate, Dicalcium Phosphate, Salt, Vegetable Oil, Extracted Citric Acid Presscake, Manganous Oxide, Manganese Sulfate, Zinc Oxide, Zinc Sulfate, Copper Sulfate, Calcium Iodate, Ferrous Sulfate, Sodium Propionate (A Preservative), Vitamin A Supplement, Vitamin D₃ Supplement, Vitamin E Supplement, Menadione Sodium Bisulfite Complex, Riboflavin Supplement, Niacin Supplement, Calcium Pantothenate, Thiamine Mononitrate, Vitamin B₁₂ Supplement, Biotin, Pyridoxine Hydrochloride, Folic Acid, Sodium Selenite, Zinc Amino Acid Complex, Choline Chloride, L-Lysine, Methionine, Dried Trichoderma reesei Fermentation Product, d-alpha Tocopheryl Acetate (Source of Vitamin E).

Feeding Directions

Feed continuously as the sole ration to laying hens. Provide clean, fresh water at all times.

NOTE: Scratch grains should **not** be fed with Egg Maker Complete.

Space Requirements

Minimum Space Requirements per Bird (20+ weeks of age)

Floor: 1.5 sq. ft. for white-egg breeds
2 sq. ft. for brown-egg breeds

Feeder: 3 inches or 20 birds/pan

Water: 2 inches or 50-100 birds per round metal drinker
