

ACES™

An amino acid supplement for equine of all ages and performance levels

Product Number: 81813AAA2G

Equine athletes require specialized nutrition to perform at their optimal levels. ACES is a unique amino acid supplement for equines of all ages and performance levels that supports the additional nutritional needs required for equine athletes. It supports muscle development and helps maintain muscle mass for athletic horses as well as horses being prepped for sale. ACES contains ingredients approved for equines that are recognized to help supply an athletic horse, growing horse, and performance horse with nutrients needed for strength, recovery, and health. ACES is formulated to support muscle and tissue recovery, support optimal muscle repair, and promote fitness. ACES is the additional nutritional support your equine athlete needs to excel in the show pen, on the track, or in the arena.

Features

Benefits

Essential amino acids	Supplies 7 of the 10 essential amino acids (lysine, methionine, threonine, tryptophan, leucine, isoleucine, and valine) to ensure horses are equipped with the building blocks of protein to support muscle development and strength.
Branched chain amino acids	Provides branched chain amino acids to help support muscle mass and recovery due to exercise.
Cell Rate®	Contains nucleotides, which support the maintenance, growth, and repair of body cells.
Higher vitamin E	Vitamin E protects body tissues from oxidative damages. In this way, vitamin E is vital for protection during health challenges, which is especially critical under strenuous conditions.
Essential vitamins	Ensures animals receive critical nutrients needed to maintain health, structure, and vitality.
Highly palatable	Horses will readily consume product.
Pellet Form	Easy to top-dress on feed.
